Make CITROEN, OPEL, PEUGEOT, TOYOTA

Model C3, C4, Astra, 2008, 3008, Proace

Engine EB2DT

## FIRST TO MARKET

# TIMING COVER GASKET KIT FOR ENGINE EB2DT - TURBO VARIANT

This innovative repair solution is First-to-Market.

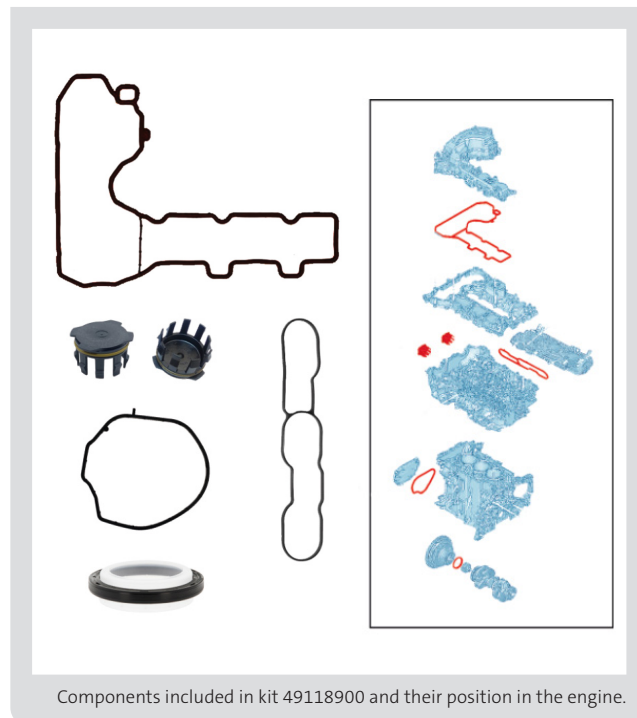

The Corteco team engineered a gasket kit required for the replacement of the timing belt that contains all the necessary parts for a quick and efficient change.

The new gasket kit 49118900 suitable for turbo engines EB2DT matches car models from Citroën, Opel, Peugeot, and Toyota.

PSA Group recommends checking the timing belt with every inspection and changing it according to the standard cycles set by the manufacturer. Not changing the part can lead to a coarse timing belt and particles entering the oil stream. This can result in a blockage of the oil filter.

The maintenance of the timing belt in EB2DT turbo engines requires the disassembly and replacement of 4 different types of gaskets and 2 plugs. Not changing for example the upper seals will cause noise due to air leakage.

**Don't take a risk – Choose Corteco original quality.**

Components included in kit 49118900 and their position in the engine.
